

ANDREI MANOLACHE

Data Engineer at Claritech

Bucharest, Romania

Overview

Andrei is a Data Engineer at Claritech with a background from the Faculty of Economic Cybernetics, Statistics and Computer Science. His experience includes analyzing datasets with SQL and developing sustainability reports during an internship at RomCapital Invest, blending technical skills with corporate responsibility.

He shows a strong interest in the financial and professional services industries, specifically following major firms like Deutsche Bank and BearingPoint. This suggests a curiosity about the application of data analytics within large-scale corporate and consulting environments.

Unique fact: Andrei has experience in a client-facing role, managing calls related to energy and gas distribution.

Topics They Care About

Data Engineering

His current role as a Data Engineer at Claritech focuses on building and maintaining data systems and infrastructure.

SQL Data Analysis

He has practical experience analyzing datasets using SQL from his time as an intern at RomCapital Invest.

Sustainability Reporting

A unique part of his background includes creating sustainability reports, showing an interest in data for social responsibility.

Corporate Finance

[Predicted] His interest in Deutsche Bank and internship at an investment firm suggest a focus on the financial industry.

Energy Sector

He has direct experience handling client communications regarding energy and gas distribution from a previous role.

Business Consulting

[Predicted] His expressed interest in following the activities of consulting firm BearingPoint indicates a potential focus on this area.
