

DANIEL SMITH

Cybersecurity Governance and Risk Manager at LINX

London, England, United Kingdom

Overview

Daniel is a public policy professional with over a decade of experience in the technology industry. As a Cybersecurity Governance and Risk Manager at LINX, he focuses on cybersecurity policy, government relations, and risk management. He holds a PRINCE2 Practitioner certification and studied History and Culture with Spanish at the University of Warwick.

His background in History and Culture with Spanish provides a unique foundation for his career in technology policy.

Topics They Care About

Cybersecurity Governance

As LINX's Cybersecurity Governance and Risk Manager, he speaks on risk management and is involved in maintaining standards like ISO 27001.

Tech Public Policy

Represents the interests of LINX's members on cybersecurity policy and has extensive experience influencing UK and European governments from his time at LINX and Ofcom.

Information Security

He is a public voice for LINX on their commitment to security, compliance, and transparency, including their Financial Supplier Qualification System (FSQS) recertification.

Internet Regulation

His previous role as an Internet Policy Advisor at Ofcom involved working on data security, online privacy, child protection, and intermediary liability.

European History

[Predicted] Based on his degree in History and Culture from the University of Warwick, suggesting a personal interest in historical and cultural topics.

Telecommunications Industry

His career at an internet exchange and stated interest in companies like BT and Vodafone indicate a focus on the broader telecommunications sector.
