

GINGER ADLER

Director, Clinical Informatics at Jackson Health System
Miami, Florida, United States

Overview

Ginger Adler serves as the Director of Clinical Informatics at Jackson Health System. In her leadership role, she oversees clinical IT projects and informatics programs for the major health network. Her responsibilities include managing vendor contracts and system implementations to support patient care and hospital operations.

Topics They Care About

Clinical Informatics

As the Director of Clinical Informatics, this is her core professional focus and area of leadership at Jackson Health System.

Healthcare IT Procurement

Her name is associated with purchasing and renewal agreements for major health IT systems, including contracts with Cerner and Omnicell.

Health System Management

[Predicted] Her role in a large, multi-facility network like Jackson Health suggests an interest in the operational and technological challenges of managing integrated health systems.

Cerner Corporation

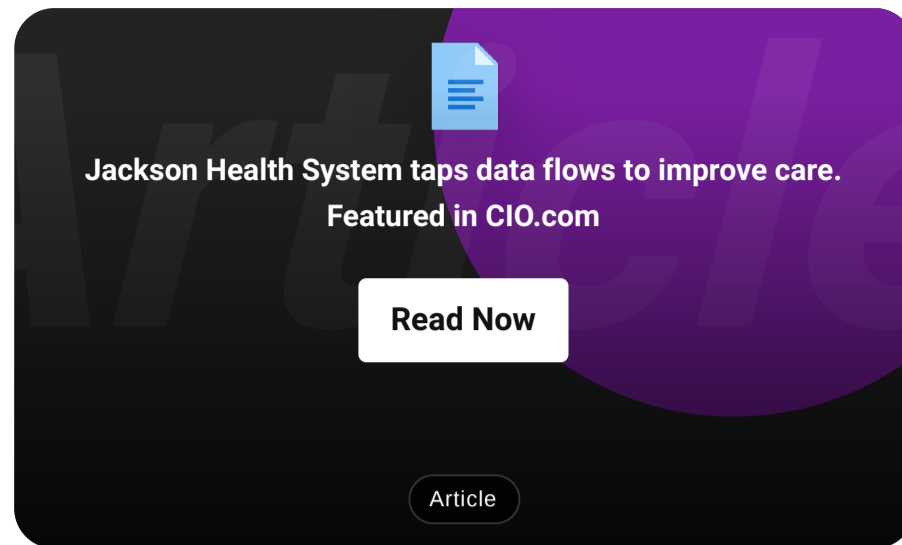

Has a stated interest in Cerner Corporation and is listed on procurement contracts with the company for Jackson Health System.

IT Vendor Management

[Predicted] Based on her involvement in multiple IT contracts, she is likely focused on building and managing relationships with key technology vendors in the healthcare space.
