

## JARED KNIPP

### Vice President of Manufacturing at Phenix Label

Olathe, Kansas, United States

### Overview

Jared Knipp is the Vice President of Manufacturing at Phenix Label, a company focused on innovative packaging solutions. In his role, he likely oversees key initiatives such as the company's push into sustainable, landfill-free operations and the recent doubling of production capacity for RFID-enabled packaging. His background includes experience as an Environmental, Health & Safety Director.

Jared attended the University of Central Missouri. His professional interests include the principles of organizational health, as popularized by The Table Group, which focuses on minimizing politics and confusion in the workplace to boost productivity and morale.

An interest in The Table Group suggests a focus on building cohesive and high-performing teams.

### Topics They Care About

#### Organizational Health

His interest in The Table Group indicates a focus on building healthy, high-performing teams by improving clarity and reducing internal politics.

#### Sustainable Manufacturing

[Predicted] As VP of Manufacturing, he is likely involved in his company's sustainability programs, such as their 99% landfill-free operations and EcoVadis certification.

#### Workplace Safety

Based on his previous role as an Environmental, Health & Safety Director at National Envelope, indicating a foundational expertise in this area.

#### RFID Technology

[Predicted] His company recently doubled production of RFID packaging, a major manufacturing initiative he would likely oversee to improve supply chain traceability.

#### Kansas City Chiefs

[Predicted] His company is located in the Kansas City metro area, suggesting a likely affinity for the local NFL team.

### UCM Mules

[Predicted] Based on his attendance at the University of Central Missouri, he may follow the school's 'Mules' athletic teams.
