## 👉 When Cold Calling

### Insights

**Pattern Interrupt:** Speaking in a slightly hesitant manner, and seeking their permission at the start through a negation can get you a chance.

**Pace:** Speak slightly fast, especially if you tend to be calm and confident. Sound like a 'knows their domain' person.

**Tone:** Keep your tone slightly apprehensive, as if you are a little unsure about calling them.

**Tactics To Win:** Use of negations, giving full information

**Mistakes To Avoid:** Use of superlatives, overusing social proof

**Making The Ask:** Use negations, it is extra effective with them. It gives them a chance to say no, they like doing that.

**Subconscious Driver:** They believe they know a lot, so it needs to make sense as well as make them curious. They need to think that it is something worth investigation.

### Script

**Greeting:** Hi Sudharson, this is [user\_fname] at [user\_companynamewordstwowords].

**Opener:** You probably don't want to be on this cold call, would it be a problem if I asked for 30 seconds of your time?

**Introduction:** My company has leveraged 30+ years of research to build an AI that can predict anyone's personality, behavior and decision-making style before you even spend a minute with them.

**Ask:** Companies like [abc], [xyz] have been able to move [KPI1] by X% and [KPI2] by Y%. Would it be too much to put 15 minutes on your calendar to share why this could be high ROI for you?

**Close:** Can I suggest [time1] on [date1]? Or would you prefer any other slots? And [prospect\_email] would be the right email ID for you?
